Commentary on the Financial Markets

United States

At the start of the reporting period, economic data for third and fourth quarters of 2018 showed solid economic growth in the United States, sustained by strong domestic demand and rising optimism among businesses and households. The US Manufacturing sector continued its modest expansion, and investment projects were still robust. The tightening of the labour market prompted gradual wage increases and consequently an improvement in disposable income, supporting already resilient US domestic consumption.

US inflation became more pervasive: domestic wage pressures were supporting underlying inflation, while favourable base effects in the Energy sector and rising import prices were fuelling overall inflation. The underlying personal expenditures index (PCE index) met the target of the Federal Reserve (Fed). On the monetary policy front, the Fed was confident about the economic outlook and executed its third rate hike in 2018 at its September meeting. However, fears of a trade war were rekindled by the implementation of new US trade tariffs on Chinese imports and the announcement of a third tariff round. In September 2018, the United States, Mexico and Canada agreed to replace the North American Free Trade Agreement (NAFTA) with the USMCA – the United States-Mexico-Canada Agreement.

In contrast to solid GDP growth in the third quarter (growth of 3.4% at an annualised rate), the GDP data appeared to be more mixed for quarter four, with more moderate growth. Business confidence remained high, particularly among small and medium sized enterprises and in the Service sector. While tariffs remained a concern for the Manufacturing sector, it posted overall moderate growth. Consumer spending remained stable, as retail sales posted above average quarterly growth. While still at a high level, household confidence eroded somewhat at the end of the fourth quarter. The labour market continued to improve, although at a less sustained pace. Wages grew modestly and businesses were using benefits in kind with the intention of attracting and retaining skilled workers. Overall, US inflation remained limited. Following its meeting on 19 December, the Fed carried out a largely anticipated interest rate hike (taking the target range for its benchmark funds rate to 2.25% - 2.5%), but nonetheless sounded a cautious note in its statement. The G20 summit in December relaunched the trade negotiations between China and the United States, and thereby suspended any trade war escalations for 90 days.

In the first quarter of 2019, US economic indicators were hard to read as the shutdown of government services following budget disputes between Republicans and Democrats delayed the publication of economic data. Overall, the US economy seemed less vigorous. After several strong quarters, at the start of 2019 retail sales slowed down in line with long-term averages. On a positive note, the healthy US labour market sustained disposable income growth and led to a continued fall in unemployment and a slight acceleration in wages. Business confidence was somewhat lower than in 2018, yet it remained consistent with moderate growth. Investment spending, however, slowed down following less dynamic growth forecasts. In quarter one of 2019, US inflation decelerated somewhat, as overall inflation stood at 1.5% to 1.6% (against 2.5% at the start of quarter four of 2018), while core inflation was stable at around 2.1%. The Federal Reserve's reference price index remained below target at 1.8%. Overall, the Federal Reserve sounded more cautious during the first quarter of 2019 as it reiterated that future decisions would depend on economic data.

During the second quarter of 2019, US economic growth again showed signs of slowing down. The ongoing trade tensions particularly affected business confidence indicators. Household spending and business investment grew at a slower pace and retail sales levels returned to their long-term averages. In a still buoyant labour market, consumer confidence was stable overall, but wage growth slowed to 3.1% on a year-on-year basis, resulting in a slowdown of disposable income growth. US business confidence indicators sent mixed signals and lower growth expectations resulted in less dynamic investment spending. Continuing from the first quarter, US inflation slowed. The Federal Reserve's reference price index remained below target (at 1.6% year-on-year). In the second quarter of 2019, the Federal Reserve started to sound more accommodative with markets expecting several cuts to key interest rates.

Eurozone

In the second half of 2018, economic activity remained robust in the Eurozone, although much weaker than expected at the start of the year. Published at the beginning of the third quarter, growth figures for the second quarter showed 0.4% GDP growth. Growth was particularly disappointing in France (up only 0.2%), which was partly due to temporary factors.

Then indicators for quarter three signalled a continued recovery across the Eurozone, but without real acceleration. Despite the steady fall in unemployment (8.1% in August 2018), core inflation remained very moderate (still around 1% year-on-year), while the upward wage trend was confirmed. The European Central Bank (ECB) hinted that after the finish of its asset purchase programme at the end of 2018, it would not raise rates until the second half of 2019. On the political front, in September the Italian government published a draft budget that conflicted with EU rules, which generated new tensions. Finally, the Brexit negotiations continued in the face of significant differences of opinion between the British and European counterparts.

Eurozone economic figures remained disappointing, well below what was expected at the beginning of the year. GDP growth, in particular, was only 0.2% in quarter three (compared to 0.4% in Q1 and Q2). Temporary negative factors certainly played a part (notably a sharp decline in German car production due to the introduction of new anti-pollution standards). Economic indicators for quarter four showed only a moderate rebound, particularly as France was engulfed by the "yellow vests" crisis. As far as inflation was concerned, although the progression of the general index temporarily exceeded 2% per annum before falling back, due to movements in the price of oil, the underlying index remained at around 1%. The ECB ended its asset purchase programme in December 2018 and lowered its growth and inflation forecasts. In the political arena, the last months of 2018 were marked by the tensions between Italy and European institutions over the Italian budget, social unrest in France (to which the French government responded with measures that will widen the budget deficit in 2019), and the very difficult Brexit negotiations.

After a disappointing performance in 2018, further signs of deterioration appeared at the start of 2019 in the Eurozone. As announced in late January, GDP growth was only 0.2% in quarter four for the entire Eurozone with Germany (GDP growth of 0%) narrowly escaping recession. Moreover, business indicators (Ifo business climate index and Purchasing Manager's Index) declined in quarter one, as lower orders indicated that this subdued economic climate could persist. The Manufacturing sector continued to face significant difficulties: short-term risks related to sectoral factors in Germany and long-term risks related to protectionism, the slowdown of global trade and the growth of the Chinese economy. In the Service sector, after poor figures in January, the rest of the quarter saw an upturn. Eurozone inflation fell, while core inflation remained very low.

In France, the political situation appeared to normalise after significant social tensions in previous months. In the United Kingdom, Brexit-related political uncertainty intensified: the British parliament refused three times to approve the EU exit agreement of November 2018. Finally, in the last days of March, the United Kingdom obtained an extension of its the deadline.

In the second quarter of 2019, published economic data confirmed a subdued economic situation in the Eurozone. At the end of April, published GDP growth figures for the first quarter (+0.4%) were somewhat reassuring. However, this outcome was driven by the Service sector and household consumption and did not include the Manufacturing sector. Manufacturing remained in trouble due to a series of internal difficulties (particularly in the German automotive sector) and external obstacles (the rise in international trade tensions). Economic data for the second quarter indicated that after a good start to the year, economic activity slowed down again.

From a political perspective, the second quarter of 2019 was dominated by the European elections in May. While the so-called "anti-system" parties gained ground, they did not achieve better than expected results. In Spain, national elections allowed Prime Minister's Sanchez's party to strengthen its parliamentary position without achieving a majority. Finally, the Brexit saga carried on with the resignation of Prime Minister May. The resulting selection of hard-line Brexit prime ministerial candidates was widely seen as increasing the likelihood of a no-deal Brexit at the end of October 2019.

Emerging markets

During the summer of 2018, emerging markets continued to struggle, weakened by increased geopolitical risks and the strength of the US dollar. The growth momentum in emerging economies slowed, while with a few exceptions (Turkey, Philippines, Mexico and Argentina) inflation remained favourable, and was only slightly affected by higher oil prices and weak local currencies. Many central banks took on a more conservative tone, except for the People's Bank of China (PBoC). China adopted stronger fiscal measures, less deleveraging and a softer monetary policy. As a result, investor concerns about the renminbi eased somewhat.

President Trump's trade policy remained a major focus for emerging markets, when on 24 September, the United States introduced trade tariffs on USD 200 billion of Chinese imports, with a further planned increase in 2019.

The Turkish lira was under attack, due to the currency's vulnerability to external pressures, a slow acting central bank, a lax fiscal policy and escalating tensions with the US government. However, in September the Turkish central bank sharply increased its key benchmark rates to 24%, ahead of market expectations, and thereby slightly reversed the depreciation of the Turkish lira.

In the third quarter of 2018, GDP figures for emerging market countries posted less robust growth than expected, particularly in Asia. Overall, despite resilient domestic demand, low levels of external demand affected growth. Inflation continued to be unaffected, with some exceptions, particularly in Mexico and the Philippines, where rates were beginning fall close to their targets. In October, oil prices posted a big drop and limited the expected slight rise in inflation for the following months. Monetary policies continued to harden and several emerging markets central banks raised their key rates, particularly the Philippines, Indonesia, Mexico, Chile, Thailand and Russia.

The start of 2019 brought a temporary reprieve in the trade war between the USA and China. Tariffs were not increased to 25% (compared with 10% in 2018) from 1 January 2019; as the USA expected new concessions from China.

The first quarter of 2019 was driven on the economic front, by the publication of growth figures for the last quarter of 2018. The results were mixed. In China, GDP was virtually unchanged. In some countries, including India, Mexico, Brazil and the majority of Central European countries, there was a downturn in comparison to the previous quarter. Others such as Peru, Russia and South Africa emerged stronger. In Turkey and in Argentina, there was a marked recession.

Throughout the first quarter of 2019, economic indicators sent conflicting signals for emerging markets. Overall, a common theme emerged: a weakness of manufactured goods exports compared to resilient domestic demand. These two equalising trends prevented recessionary forces in regions such as Asia where export growth was particularly sluggish. Furthermore, the accommodative rhetoric of the Federal Reserve and the European Central Bank supported emerging market assets and currencies.

GDP for the first quarter of 2019 was lower than expected, with the exception of China, India, Central and Eastern European countries and Taiwan. Overall, the contribution of foreign trade to growth was modest or even slightly negative. The trade slowdown also impacted domestic demand, primarily on the business investment side. In the second quarter of 2019, short-term economic indicators indicated a stabilisation but business and consumer confidence indices declined again, probably due to the intensification of the trade dispute between China and the United States. While at the start of the year, trade negotiations between the United States and China yielded results, and the USA postponed the tariff increase for Chinese products, at the start of May, the United States and China failed to prevent the tariff increase of US dollar 200 billion on US imports from China.

On the political front, an additional worry for investors were the political tensions between the United States and the Middle East.

Meanwhile, inflation in emerging countries increased slightly, driven by rising food prices. On the monetary policy front, despite the accommodative stance of the major advanced economies, there was little action by emerging central banks. Even so, with an increased likelihood of an easing by the Federal Reserve, the missives of the major emerging markets central banks took on a more accommodating tone. Fiscal policy became more expansionary during the period but remained relatively cautious. In this environment of high uncertainty, unsurprisingly market volatility as well as investors' risk aversion increased, particularly as many countries (Turkey, Argentina, South Africa, Mexico, Brazil, etc.) had to cope with idiosyncratic shocks.

In the second quarter of 2019, ratings agencies downgraded Mexico and Turkey's sovereign ratings. President Erdogan's party lost in local elections in Istanbul amidst continuous tensions between the United States and Turkey. In South Africa, a country whose growth prospects were already revised downwards, the restructuring costs of the national utility company was worrying markets. In Brazil, reforms were delayed and growth was disappointing. In Argentina, inflation was around 60% with a fall in GDP of nearly 6% in the first quarter.

Luxembourg, 30 October 2019

1 INTRODUCTION

Amundi Funds (the "Fund") is organised as a "Société d'Investissement à Capital Variable" ("SICAV") under the laws of the Grand Duchy of Luxembourg. The Fund, initially Groupe Indosuez Funds FCP, an unincorporated mutual investment fund ("Fonds Commun de Placement") created on 18 July 1985, was transformed, in accordance with Article 110 (2) of the law of 30 March 1988 on Undertakings for Collective Investment, and renamed GIF SICAV II on 15 March 1999. The deed of transformation and the Articles of Incorporation (the "Articles") were published in the Mémorial, Recueil des Sociétés et Associations on 28 April 1999. The name of the Fund was then changed to GIF SICAV on 1st December 1999, to Crédit Agricole Funds on 8 December 2000 and to CAAM Funds on 1st July 2007. As at 2 March 2010, in accordance with the decision taken by the shareholders in the framework of the Extraordinary General Meeting held on 23 November 2009 and with the decision of the Board of Directors taken on 23 December 2009, CAAM Funds was renamed Amundi Funds.

The amendments to the Articles have been published in the Mémorial, Recueil des Sociétés et Associations respectively on 14 January 2000, on 17 January 2001, and on 13 June 2007 for the first three name changes and on 3 April 2010 for the last one. A latest amendment to the Articles has been made on 14 March 2012 and has been published in the Mémorial, Recueil des Sociétés et Associations - C, number 943 and dated 12 April 2012. The Fund is subject to Part I of the amended law of 17 December 2010 on Undertakings for Collective Investment (the "2010 law").

As at 2 July 2018, the Investment Manager has changed from Amundi Hong-Kong to Amundi Asset Management (London Branch) for the the sub-funds Amundi Funds Asia Equity Concentrated and Amundi Funds Equity Greater China.

Within each sub-fund, the SICAV can create and issue share classes with various characteristics and investor eligibility requirements. Each share class is identified first by one of the base share class labels (described in the table below) and then by any applicable suffixes.

Classes Label	Investors	Board approval needed ³	Minimum initial investment ¹	Maximum subscription fees ²	Maximum conversion fees ⁴	Maximum redemption fees
Q-A	All investors	No	-	4.50%	3.00%	-
Q-F	Clients of authorised distributors	No	-	-	1.00%	-
Q-H	Clients of authorised distributors	Yes	-	1.00%	1.00%	-
Q-I	Institutional investors	No	USD 500,000	2.50%	1.00%	-
M	Italian GPF and UCITS, UCIs, mandates or pension vehicles	Yes	-	2.50%	1.00%	-
Q-O	Institutional investors or feeder funds managed or distributed by an Amundi Group company	Yes	USD 500,000	5.00%	1.00%	-
OR	Feeder funds managed or distributed by an Amundi Group company	No	-	5.00%	1.00%	-
P	Private banks	Yes	USD 100,000	4.50%	1.00%	-
Q-R	Reserved for intermediaries or providers of individual portfolio management services that are prohibited, by law or contract from retaining inducements	No	-	4.50%	1.00%	-
Q-S	Clients of authorised distributors	No	-	3.00%	1.00%	-
Q-X	Institutional investors	No	USD 5 million	5.00%	1.00%	-
Z	Funds managed by an Amundi Group company	Yes	-	5.00%	1.00%	-

For a complete list of sub-funds and share classes currently available, go to the website www.amundi.lu/amundi-funds.

¹ For purposes of minimum initial investment, we aggregate the investments of a given investor (or group of entities fully owned by the same parent company) across the entire SICAV (all share classes and all sub-funds). Minimums apply in USD or equivalent amount in any other currency.

² For Absolute Volatility Euro Equities and Absolute Volatility World Equities, may be up to 2.00% higher if the board determines that new investments may adversely affect the interests of existing shareholders.

³ In I2 and A2 share classes, Board approval is not required due to their domiciliation specificity.

⁴ For Q-A4 share classes, switch is only possible between Q-A4 share classes of another Sub-Fund of the UCITS.

2 PRINCIPAL ACCOUNTING CONVENTIONS

■ PRESENTATION OF THE FINANCIAL STATEMENTS

The Fund's financial statements were prepared in accordance with the legal and regulatory provisions in force in Luxembourg concerning undertakings for collective investment.

The financial statements are presented on the basis of the latest Net Asset Value ("NAV") calculated during the financial period/year. In accordance with the prospectus dated April 2019, the NAVs were calculated using the latest market values and exchange rates known at the time of the calculation meaning:

- For the sub-fund Amundi Funds Equity MENA: 27 June 2019.
- For all other sub-funds: 28 June 2019.

In the annual report as at 30 June 2019, the sub-funds merged or liquidated during this year were shown separately in the Statement of Operations and Changes in Net Assets and were included in the combined figures.

The objective of Amundi Funds Protect 90 and Amundi Funds Protect 90 USD is to provide a participation in financial markets evolution while also providing permanent partial protection of your investment over any given 3-year period. Specifically, the sub-fund is designed to ensure that its share price does not fall below 90% of the highest net asset value it has ever achieved.

- **Cross Sub-Funds investments** - As at 30 June 2019, the value of the investments made by sub-funds in other sub-funds of the SICAV amounts to EUR 968,020,157 corresponding to 1,20% of the total net asset value. Therefore, the total combined NAV at the period end without those cross investments would amount to EUR 79,755,805,951.
- **Securities portfolio** - Transferable securities listed on a Stock Exchange or on a regulated market are valued at their last known price. When these prices are not representative or when securities are not listed, they are valued at their reasonably probable realisation value, determined with care and in good faith by the Board of Directors.
- **Conversion of items expressed in foreign currencies** - The Fund's financial statements are expressed in Euro (EUR). Net assets of each sub-fund expressed in foreign currencies are therefore converted and combined in EUR at the exchange rate in force at the close of the financial year. Transactions and acquisition costs for portfolio securities expressed in foreign currencies are converted into the accounting currency of the sub-fund concerned at the exchange rate in force on the date of transaction or acquisition, as appropriate. Valuation values for securities in the portfolio and of other assets and liabilities expressed in foreign currencies are converted into the accounting currency of the sub-fund at the exchange rate in force at the end of the financial period. Currency differences resulting from these conversions are recorded in the Statement of Operations and Changes in Net Assets.
- **Return on investments** - Dividends are entered as yields on the date when they are declared and in so far as the appropriate information can be obtained by the Fund. Interest is accrued on a daily basis.
- **Distribution of costs and expenses** - Each sub-fund is charged with costs or expenses specifically attributable to it. Costs and expenses not attributable to a specific sub-fund are distributed between the sub-funds on an equitable basis, in proportion to their respective Net Assets.
- **Repurchase agreements** - Repurchase agreements (Repos) are equivalent to borrowings guaranteed by underlying assets presented in the securities portfolio of the sub-fund which remains exposed to market risk. Reverse Repurchase agreements (Reverse Repos) are similar to guaranteed loans. In this case, the sub-fund is not subject to the risk of depreciation in the value of the underlying assets. Repos and Reverse Repos are regarded as borrowings and loans, respectively, of the sum of liquid assets received and/or paid.
- **Futures contracts** - Unexpired futures contracts are valued at their last known price on the date of valuation or on the closing date and unrealised appreciations or depreciations resulting from them are recorded in the Statement of Net Assets.
- **Futures-style options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cash-flows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open options contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction. Net unrealised appreciations or depreciations on futures-style options contracts are recorded in the Statement of Net Assets. Net realised and net change in unrealised gain/(loss) on futures-style options contracts are recorded in the Statement of Operations and Changes in Net Assets.
- **Forward foreign exchange contracts** - Unexpired forward foreign exchange contracts are valued at the exchange rates applicable on the valuation date or on the closing date and unrealised appreciations or depreciations resulting from them are recorded in the Statement of Net Assets. In the Cash sub-funds, the unexpired forward foreign exchange contracts are valued with the linearisation method.
- **Valuation of options and swaptions** - Options officially listed on a stock market or any other regulated market, operating in a regular manner, recognised and open to the public, are valued on the basis of their closing prices on the valuation day or, in the absence of such prices, on the basis of the last-known prices available. If these last-known prices are not representative, the valuation will be based on the probable realisation value estimated by the Board of Directors with prudence and in good faith. Currency options are valued at the market value.
- **Swaps** - The Fund is authorised to enter into volatility swaps, correlation swaps, credit default swaps, total return swaps, inflation swaps, asset swaps, interest rate swaps or currency swaps. Except for the interest rate swaps included in the Net Asset Value of the Cash EUR and Cash USD sub-funds, interest rate swaps, volatility swaps, correlation swaps, variance swaps, credit default swaps, total return swaps, inflation swaps and currency swaps are recorded at market value based on the valuation elements laid down in the contracts. In the Cash sub-funds, the unexpired swaps contracts are valued with the linearisation method. The unrealised net gain is included in the item "Unrealised net appreciation on swaps and CFD" in the Statement of Net Assets and the unrealised net loss is included in the item "Unrealised net depreciation on swaps and CFD" in the Statement of Net Assets.
- **Money market instruments** - The money market is a financial instrument with high liquidity and very short maturities. It is used by participants as a means for borrowing and lending in the short term, with maturities that usually range from overnight to just under a year. For the money market instruments, the accretion (difference between cost and amortised value), is reported under "Net change in unrealised appreciation/(depreciation) on investments and on debts derived from reverse repurchase agreements" for securities held. If the instruments have been sold or reimbursed, this result is considered as "Net realised profit/(loss) on securities sold".
- **Mortgage related securities - To Be Announced securities (TBAs)** - TBA positions refer to the common trading practice in the mortgage backed securities market in which a security is to be bought from a mortgage pool (e.g. Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed price at a future date. At the time of purchase the exact security is not known, but the main characteristics of it are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. TBA positions are disclosed in the Securities Portfolio. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Brokers payable" in the Statement of Net Assets. The realised profits/(losses) on TBAs and changes in unrealised appreciation/depreciation are disclosed in the Statement of Operations and Changes in Net Assets respectively under the headings "Net realised profit/(loss) on securities sold" and "Net change in unrealised appreciation/(depreciation) on investments and on debts derived from reverse repurchase agreements".

- **“Net realised profit/(loss) on securities sold”** - The “Net realised profit/(loss) on securities sold” figure of the Statement of Operations and Changes in Net Assets reflects the difference between the cost and proceeds from securities sold, including the market as well as the currency impacts.
- **Transaction costs** - The transaction costs include broker fees and fees charged by the custodian for securities and derivatives transactions. The transaction fees are excluded from the cost of securities and derivatives purchased and sold. All these fees are recorded under caption “Broker and transaction fees”. Refer to note 14 which describes the reception and transmission of orders fees.
- **Contracts for difference** - At each valuation date, the difference in price between the opening price and the current market price of the underlying security or index to the CFD is recorded as the market value (unrealised gain or loss) of the contract; when the Sub-Fund enters a closing transaction, the difference between the opening notional amount and the closing notional amount of the underlying security is recorded as a realised gain or loss. Initial margin deposits may be made in cash upon entering in CFD. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open CFD contracts.

3 EXCHANGE RATES USED AS OF 30 JUNE 2019

The exchange rates used for the combined figures are the following:

1 JPY =	0.008150 EUR
1 CNH =	0.127763 EUR
1 USD =	0.878117 EUR

4 MANAGEMENT FEES, ADMINISTRATION FEES AND DISTRIBUTION FEES

Fee structure - The Administration fee is a fee expressed as a percentage of the NAV of the sub-funds and classes of shares, including all the administrative expenses of the Fund.

Such fee includes the remuneration of the Administrative Agent, Domiciliary Agent, Transfer Agent and Registrar Agent for their services rendered to the Fund, the remuneration of the Custodian for its services rendered to the Fund as well as all other administrative expenses incurred in the operation of the Fund including but not limited to:

- the fees of auditors and legal advisers of the Fund (including costs associated with compliance with legal and regulatory requirements);
- the cost of translation, printing and distribution to investors of the annual and semi-annual reports of the prospectus of the Fund and of the Key Investor Information of each class of shares and any supplement thereto as well as any notice to the Investors' attention;
- any costs related to the information of the shareholders including costs related to the publication of prices of shares in the financial press, the production of information material for the subscribers and distributors;
- any fees and expenses involved in registering and maintaining the registration of the Fund with any governmental agency or stock exchange and to comply with any regulatory requirements and the reimbursement of such fees and expenses incurred by any local representative;
- the fees of any local representative/correspondent, of which the services are required pursuant to the applicable law;
- the costs related to extraordinary measures, in particular any expertise or trial aiming at the protection of the shareholders' interests;
- the costs related to the translation, distribution and publication of any notice to the shareholders.

The Administration fee is payable monthly in arrears to Amundi Luxembourg S.A. and is calculated each day for each sub-fund and each class of shares.

From such fee, Amundi Luxembourg S.A. will pay the fees of the Custodian, the Administrative Agent, the Domiciliary Agent, the Transfer Agent and the Registrar Agent and the administrative expenses of the Fund.

The Management fees, expressed in percentages of the NAV, are payable quarterly to Amundi Luxembourg S.A. and calculated each day for each sub-fund on the basis of the daily NAV of each class of shares.

The Management Company is responsible for paying commissions to Investment Managers.

In addition to the management fees paid by the Fund to Amundi Luxembourg S.A., the sub-funds investing part of their assets in other UCI's are also subject to the management fees charged to those sub-funds, except for cross sub-funds investments.

The Distribution fees are calculated and accrued on each Dealing Day at the below rates per annum and are payable quarterly in arrears to Amundi Luxembourg S.A. Amundi Luxembourg S.A. is responsible for the payment of fees to Distributors.

The Management Company can further decide to pay remuneration to Distributors out of its own fees.

The Management fees, Administration fees and Distribution fees, expressed as a percentage of the NAV, applicable at 30 June 2019 are the maximum rates set out on the website www.amundi.lu/Amundi-Funds, except for the sub-funds Amundi Funds Cash EUR and Amundi Funds Cash USD, for which the below rates per annum are applied:

5 PERFORMANCE FEES

The performance fee is calculated separately for each Class of Shares. It shall be accrued daily, deducted and paid annually for each Class of Shares. The performance fee is calculated by comparing the NAV of the sub-fund relevant Class of Shares and the reference asset.

The mechanism applied is further detailed on the website www.amundi.lu/Amundi-Funds

The sub-funds and the Classes of Shares subject to a performance fee are listed on the website www.amundi.lu/Amundi-Funds.

6 TAXATION OF THE FUND - TAXE D'ABONNEMENT

The Fund is further liable in Luxembourg to a tax of 0.05% per annum in respect of the Equity sub-funds, Bond sub-funds, Multi Asset sub-funds, Protected sub-funds and Absolute Return sub-funds (except on investments by these sub-funds in other undertakings for collective investment established in Luxembourg for which no tax is applied) and of 0.01% per annum in respect of the Cash sub-funds, the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the Q classes Category, the S classes Category, the X classes Category and the Z classes Category of all the sub-funds ("Taxe d'Abonnement"), such tax being payable quarterly on the basis of the NAV of the Fund at the end of the relevant calendar quarter.

The benefit of the 0.01% per annum Taxe d'Abonnement is available to those Shareholders admitted in the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the Q classes Category, the S classes Category, the X classes Category and the Z classes Category on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Fund at the time of admission of an Investor in such class of shares.

However, no guarantee can be given for the past and for the future and such assessment is subject to interpretations on the status of an eligible Investor in the H classes Category, the I classes Category, the J classes Category, the M classes Category, the O classes Category, the Q classes Category, the S classes Category, the X classes Category and the Z classes Category by any competent authorities as will exist from time to time. Any such reclassification made by an authority as to the status of an Investor may submit the entire class of shares to a Taxe d'Abonnement rate of 0.05% per annum.

7 MASTER-FEEDER STRUCTURE

Amundi Funds European Equity Green Impact

The objective of the sub-fund Amundi Funds European Equity Green Impact is to achieve long-term capital growth.

Specifically, the sub-fund invests as a feeder fund in Amundi Valeurs Durables (Master Fund).

The Master Fund invests mainly in European equities. Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only. Amundi Valeurs Durables is an FCP that is constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests at least 75% of its net assets in equities of companies that are headquartered, or do substantial business, in Europe, that derive a large portion of revenue from environmental activities, and that perform well on extra-financial ESG criteria (environment, social and governance).

The Master Fund expects to have an equity exposure of between 75% and 120%. There are no market capitalisation constraints for these investments.

While complying with the above policies, the Master Fund may also invest in investment-grade bonds and convertible bonds, money market instruments and deposits, and up to 10% of its net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for hedging and efficient portfolio management, and to increase its net exposure. In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices). The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements). The Master Fund is not managed in consideration of any index though its performance is compared to the MSCI Europe Index.

The Master Fund's investment team analyses about 100 European equities, among which they select companies that are active in green technologies (energy efficiency, renewable energies, water and waste management) and exclude companies that produce energy from fossil fuels or nuclear power. The investment team uses an optimisation process to achieve the desired diversification, number of securities, risk profile and liquidity.

The Investment manager of the both sub-funds is Amundi Asset Management.

Fees directly charged to Amundi Funds European Equity Green Impact amount to EUR 3,292,362 which is summarized in the table below in terms of percentages of the average NAV of Amundi Funds European Equity Green Impact share-classes:

			Ongoing charges	Performance fees
European Equity Green Impact	EUR	- A EUR (C)	1.63%	0.00%
	EUR	- F2 EUR (C)	3.00%	0.00%
	EUR	- I EUR (C)	0.67%	0.10%
	EUR	- G EUR (C)	2.02%	0.00%
	EUR	- ME (C)	0.91%	0.00%

Fees indirectly charged through fees accrued in the Master Fund (OR Class) amount to EUR 174,092 or 0.10% of the average NAV of the Master Fund (OR Class) Amundi Valeurs Durables.

The annual and semi-annual reports of the Master Fund are available upon request at the Registered Office of the Fund.

Amundi Funds Global Total Return Bond

The objective of the sub-fund Amundi Funds Global Total Return Bond is to achieve a combination of income and capital growth (total return).

Specifically, the sub-fund invests as a feeder fund in Amundi Oblig Internationales (Master Fund) that seeks to outperform (after applicable fees) the JP Morgan Global Government Bond Index Broad index over any given 3-year period.

The Master Fund invests mainly in OECD bonds and convertible bonds. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR-D class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

Amundi Oblig Internationales is a SICAV constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests up to 100% in:

- bonds issued or guaranteed by OECD member states,
- investment-grade bonds and convertible bonds issued by companies that are headquartered, or do substantial business, in the OECD,
- MBSs and ABSs rated AAA (S&P) or Aaa (Moody's) at the time of the purchase and downgraded not less than AA or Aa2 when held.

The mortgages underlying the MBSs may be commercial or residential, and the MBSs may or may not come with any form of government credit backing.

The Master Fund's exposure to contingent convertible bonds is limited to 10% of net assets.

The Master Fund actively manages its exposure to interest rate and foreign exchange markets.

While complying with the above policies, the Master Fund may also invest in money market instruments, deposits, and up to 10% of its net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for arbitrage, hedging and efficient portfolio management, and to increase its net exposure.

In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices).

The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).

The Master Fund's net income is automatically distributed and its net realised capital gains are automatically reinvested or distributed each year, as the management company of the Master Fund may determine.

The Master Fund's investment team uses a wide range of strategic and tactical positions, including arbitrage among credit, interest rate and currency markets, in assembling a highly diversified portfolio.

The Investment manager of the both sub-funds is Amundi Asset Management.

Fees directly charged to Amundi Funds Global Total Return Bond amount to EUR 6,452,131 which is summarized in the table below in terms of percentages of the average NAV of Amundi Funds Global Total Return Bond share-classes:

			Ongoing charges	Performance fees
Global Total Return Bond	EUR	- A EUR (C)	0.93%	0.67%
	EUR	- A EUR AD (D)	0.93%	0.71%
	EUR	- A EUR QD (D)	0.59%	0.76%
	EUR	- F2 EUR (C)	1.72%	0.31%
	EUR	- F2 EUR QD (D)	1.72%	0.31%
	EUR	- I EUR (C)	0.71%	0.75%
	EUR	- I EUR AD (D)	0.71%	0.75%
	EUR	- G EUR (C)	1.13%	0.67%
	EUR	- G EUR QD (D)	1.13%	0.67%

Fees indirectly charged through fees accrued in the Master Fund (OR-D Class) amount to 363,285 or 0.10% of the average NAV of the Master Fund (OR-D Class) Amundi Oblig Internationales.

The annual and semi-annual reports of the Master Fund are available upon request at the Registered Office of the Fund. Amundi Funds Bond Global Total Return also indirectly pays for fees of underlying funds held in the Master Fund.

Amundi Funds Target Coupon

The objective of the sub-fund Amundi Funds Target Coupon is to achieve a combination of income and capital growth (total return). Specifically, the sub-fund invests as a feeder fund in Amundi Revenus (Master Fund).

The Master Fund invests mainly in debt instruments (bonds and money market instruments) of all types that are issued by governments or companies around the world and denominated in one of the OECD currencies, with diversification among currencies and equity markets.

Specifically, the sub-fund invests at least 85% of its net assets in units of the Master Fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

Amundi Revenus is an FCP that is constituted under French law and qualifies as a Master Fund under Directive 2009/65/EC.

The Master Fund invests at least 70% of its net assets in debt instruments. The Master Fund may invest in

- below-investment-grade bonds (high-yield bonds),
- subordinated corporate bonds (including contingent convertible bonds up to 50% of net assets) and
- up to 20% of net assets in mortgage-backed securities (MBS) and asset-backed securities (ABS).

The Master Fund may also invest in equities of companies of all capitalisations and sectors around the world. The Master Fund's exposure to the equity market may range from 0% to 20% of net assets, and its exposure to the currency market may range from 0% to 100% of net assets.

The Master Fund may also invest up to 10% of net assets in UCITS/UCIs.

Derivatives are integral to the Master Fund's investment strategies. The Master Fund may use derivatives for hedging and efficient portfolio management, and to increase its net exposure.

In addition to core derivatives, the Master Fund may use credit derivatives (on single issuer and on indices).

The Master Fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).

The amount of the distributed income will be set annually by the management company of the Master Fund, based on the expected returns of the assets in the portfolio. The Master Fund does not compare its performance to any particular index.

The Master Fund's investment team seeks to exploit yield premiums from a broad investment universe (primarily bonds), using a management approach that is flexible and is based on high-conviction choices. It analyses interest rate and economic trends (top-down) to identify strategies and country and asset class allocations that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including risk premium and credit analysis, to select securities based on their potential to generate income (bottom-up) and to construct a highly diversified portfolio that can provide a regular return.

The Investment manager of the both sub-funds is Amundi Asset management.

Fees directly charged to Amundi Funds Target Coupon amount to EUR 2,041,507 which is summarized in the table below in terms of percentages of the average NAV of Amundi Funds Target Coupon share-classes:

			Ongoing charges	Performance fees
Target Coupon	EUR	- Q-A4 EUR AD (D)	1.01%	0.00%
	EUR	- A2 EUR AD (D)	1.01%	0.00%
	EUR	- F2 EUR AD (D)	1.61%	0.00%
	EUR	- I2 EUR AD (D)	0.52%	0.00%
	EUR	- G2 EUR AD (D)	1.21%	0.00%

Fees indirectly charged through fees accrued in the Master Fund (OR class) amount to EUR 183,883 or 0.10% of the average NAV of the Master Fund (OR class) Amundi Revenus.

Amundi Funds Target Coupon also indirectly pays for fees of underlying funds held in the Master Fund.

The annual and semi-annual reports of the Master Fund are available upon request at the Registered Office of the Fund.

8 OPEN POSITIONS ON FUTURES CONTRACTS

As at 30 June 2019, certain sub-funds had the following positions on futures contracts:

The broker of all the futures listed is NEWEDGE.

Please refer to the note 21 for detailed collateral information.

12 OTHER INCOME

Amounts of other income in the Statement of Operations and Changes in Net Assets include mainly revenues from securities lending and recovery of provisions on performance fees.

13 OTHER EXPENSES

Balances for other expenses in the Statement of Operations and Changes in Net Assets mainly include other taxes and costs from securities lending.

Amounts of other expenses in the Statements of Operations and Changes in Net Assets in the sub-funds Amundi Funds Asia Equity Concentrated, Amundi Funds Emerging World Equity, Amundi Funds SBI FM India Equity, Amundi Funds Equity India Infrastructure, Amundi Funds SBI FM Equity India Select and Amundi Funds Equity Emerging Conservative mainly include Indian Tax.

Amounts of other expenses in the Statement of Operations and Changes in Net Assets for the sub-fund Amundi Funds Cash EUR mainly include bond interest.

14 RECEPTION AND TRANSMISSION OF ORDERS FEES

Reception and transmission of orders fees are:

- paid to Amundi Intermediation or to Amundi (UK) Ltd, for their services rendered to sub-funds managed by Amundi which consist in centralizing orders and in supporting their best execution.

- accrued daily and paid quarterly on the basis of the transactions handled by Amundi's related parties.

Compared to an investment manager negotiating transactions on his own, the centralization of order enables namely to negotiate better prices with the brokers thanks to an increase of transactions volume, to have access to a larger number of brokers and to more market information, to benefit from the know-how of trading specialists and dedicated trading controllers.

These fees are recorded under caption "Reception and transmission of orders fees" in the Statement of Operations and Changes in Net Assets.

15 STATEMENT OF PORTFOLIO MOVEMENTS

Details of movements of securities in the portfolio for the financial period ending 30 June 2019 may be obtained free of charge on request at the Fund's registered office and the Hong Kong representative office.

The list of the portfolio changes can also be obtained free of charge at the Paying and Information Agent's office in Germany and at the Representative's office in Switzerland.

16 OPERATION WITH RELATED PARTIES

The related parties, in their capacity as brokers, may also carry out operations or invest in currencies or other financial products on behalf of each sub-fund for which the related parties act as broker or on their own behalf or as counterpart for their clients, including cases where the related parties or their clients are able to carry out transactions on their own behalf at the same time as on behalf of each sub-fund. The transactions as listed on the table have been entered into ordinary course of business and on normal commercial terms.

The Fund considers that the commissions, premiums and reductions billed by related parties will be competitive, even though it is in the interest of the related parties to obtain favourable commission rates, together with premiums and reductions for each sub-fund.

During the year, transactions for a total amount of EUR 20,421,774,462.53 i.e. 19.50% of the total transactions carried out over the period, were carried out by such related parties.

During the year ended on 30 June 2019, Amundi Funds carried out transactions with related parties amounting to:

	Currency	Sub-funds	Total transactions with related parties	Percentage of transactions with related parties	Total commissions with related parties	Average commission rate

17 SOFT DOLLARS COMMISSIONS

The Investment Managers of the concerned sub-funds have entered into soft commission arrangements with brokers under which certain goods and services used to support the investment decision making and are of demonstrable benefits to the sub-funds were received by the Investment Managers. The goods and services are paid for by the brokers out of commission they received and the Investment Managers do not make direct payment for these services. The goods and services utilised for the Fund include market analysis: data and quotation services, performance measurement and computer hardware and software incidental to the above goods and services; clearing and custodian services and investment related publications.

The following sub-funds have entered into soft commissions agreements:

- Amundi Funds Wells Fargo Equity US Mid Cap
- Amundi Funds Equity US Relative Value
- Amundi Funds Pioneer Global Equity
- Amundi Funds Pioneer US Equity Dividend Growth
- Amundi Funds Pioneer US Equity Fundamental Growth
- Amundi Funds Pioneer US Equity Mid Cap Value
- Amundi Funds Pioneer US Equity Research
- Amundi Funds Pioneer US Equity Research Value
- Amundi Funds US Pioneer Fund
- Amundi Funds Pioneer US High Yield Bond
- Amundi Funds Pioneer Flexible Opportunities
- Amundi Funds Pioneer Income Opportunities

18 DIVIDENDS

The Fund distributed the following dividends per share during the financial period under review:

Ex-date: 24 September 2018

Payment date: 28 September 2018

20 SWAPS

INTEREST RATE SWAPS

The Fund has concluded Interest rate swap contracts in which the counterparties exchange respective engagements for the payment or receipt of interest on a specific nominal reference amount. These amounts are calculated and booked for every time the NAV is calculated. The interests receivable are included in the item "Interest receivable" of the Statement of Net Assets and the interests payable are included in the item "Other liabilities" of the Statement of Net Assets.

CREDIT DEFAULT SWAPS

The Fund has concluded "Credit Default Swaps" contracts designed to transfer the credit exposure of fixed income instruments between parties. The amounts of fixed income exchanged with an income tied to the evolution of credit events of either an index or a bond, are calculated and accounted for every time the NAV is calculated.

INFLATION SWAPS

The Fund has concluded "Inflation Swaps" which are contracts offering the difference between an inflation level, applied on a given nominal amount agreed at the contract inception, and a fixed interest rate applied on the same nominal amount. These amounts are calculated and booked for every time the NAV is calculated.

■ Amundi Funds Euro Inflation Bond

25 SWING PRICING

Since January 2016, a Swing Pricing policy has been implemented in the Fund.

Significant net inflows or outflows in a Sub-Fund cause the Investment Manager to trade the Sub-Funds' securities, thereby incurring trading costs.

With Swing Pricing, a Sub-Fund's Net Asset Value per share is adjusted to account for trading costs incurred where shareholders' subscriptions or redemptions activity exceeds a Sub-Fund's predetermined threshold. Swing Pricing is a mechanism of valuation which adjusts (swings) a Sub-Fund's Net Asset Value per share to account for these trading costs.

The aim is to protect the interests of non-dealing shareholders by ensuring the shareholders making significant subscriptions or redemptions contribute to the cost of their transactions.

Market conditions, trading costs and other Sub-Fund's data are used by the Management Company to determine which Sub-Fund's Net Asset Value per share may be affected by Swing Pricing, and the appropriate threshold and swing factor to be applied for each Sub-Fund. These are reviewed by the Board of Directors of the Management Company on a periodic basis.

During July 2018 - June 2019, Swing Pricing adjustments were applicable on the Net Asset Value per share of the following Sub-Funds:

Amundi Funds Equity Global Concentrated
Amundi Funds Equity Japan Target
Amundi Funds Japan Equity Value
Amundi Funds Pioneer Global Equity
Amundi Funds Pioneer US Equity Fundamental Growth
Amundi Funds Pioneer US Equity Research Value
Amundi Funds Euroland Equity Small Cap
Amundi Funds Equity Europe Small Cap
Amundi Funds Asia Equity Concentrated
Amundi Funds SBI FM India Equity
Amundi Funds Japan Equity
Amundi Funds Convertible Conservative
Amundi Funds European Convertible Bond
Amundi Funds Global Convertible Bond
Amundi Funds Euro Corporate Short Term Bond
Amundi Funds Euro High Yield Bond
Amundi Funds Euro High Yield Short Term Bond
Amundi Funds Global Bond
Amundi Funds Global Corporate Bond
Amundi Funds Bond Emerging Markets Corporate Bond

Amundi Funds Emerging Markets Hard Currency Bond
Amundi Funds Bond Global Emerging Local Currency
Amundi Funds Emerging Markets Bond

The swing amounts posted for the period ended as at 30 June 2019 are booked in the "Statement of Operations and Changes in Nets Assets" under "net subscriptions/redemptions".

No swing price adjustments were booked for the Net Asset Values per share as of 28 June 2019.

26 LIQUIDATED SUB-FUNDS

As at June 30, 2019, the following liquidated sub-funds are still holding cash for payment of residual invoices :

- Amundi Funds Equity Korea : amount of 227 788,81 EUR (259 405,10 USD)
- Amundi Funds Income Partners China Aggregate Bond : amount of 3 891,28 EUR (4 431,38 USD)
- Amundi Funds Absolute Volatility Arbitrage : amount of 13 936,19 EUR

Following the repayment of all liabilities, the residual cash balance will be repaid to former shareholders.

27 MONEY MARKET SUB-FUNDS

From 20th March 2019 Amundi Funds Cash EUR and Amundi Funds Cash USD are compliant with the EU regulation 2017/1131 related to money market funds. Those 2 sub-funds belong to the category VNAV MMF as defined by the EU regulation.

Audit report

To the Shareholders of
Amundi Funds

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Amundi Funds (the “Fund”) and of each of its sub-funds as at 30 June 2019, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 30 June 2019;
- the securities portfolio as at 30 June 2019;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

PricewaterhouseCoopers, Société coopérative

Christophe Pittie

Luxembourg, 30 October 2019

To the shareholders of Amundi Funds

We hereby confirm that, in our opinion, the Management Company of the Fund, has in all material respects, managed Amundi Funds in accordance with the provisions of the legal documentation of the Fund, as amended, for the year ended 30 June 2019.

For and on behalf of
CACEIS Bank Luxembourg S.A.

If required by the Law, notices to shareholders will be published in the Luxembourg "Mémorial", the Luxemburger Wort and in such other newspapers as the Directors may determine.

SFT REGULATION

Following the Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions, only transactions on reverse repurchase agreements, repurchase agreements, securities lending and performance swaps were subject to this Regulation as at 30 June 2019.

All transactions are bilateral transactions.

Sub-funds respect at all time the constraint "Cash received as collateral of OTC contracts and repurchase agreements has to be higher than the sum of deposits with credit institutions, investments in high-quality government bonds, reverse repurchase transactions with credit institutions and investments in short term money market funds". Cash is managed as a whole; the investment management process does not specifically isolate cash received as collateral from other cash.

Collateral granted by the sub-funds in the context of repurchase agreements are held on segregated accounts.

The income and transaction costs of the securities under repurchase agreements, due to CACEIS, are included in the caption "Income on Reverse Repos" and "Expenses on Repos" in the Statement of Operations and Changes in Net Assets, for each Sub-Fund.

* The total does not include the collateral cash.

All transactions are bilateral transactions.

For each counterparty and each sub-fund, collateral positions are followed-up globally for all OTC instrument types.

Cash collateral is managed as a whole; the investment management process does not specifically isolate cash received as collateral from other cash.

Returns and costs incurred from performance swaps transactions during the period ended 30 June 2019 are included in the valuation of the swaps.

REMUNERATION POLICY AND PRACTICES

Amundi Luxembourg remuneration policy is compliant with the requirements detailed in the European Directive 2014/91/EU that come into force on 18 March 2016, and was transposed into Luxembourg Law of 10 May 2016.

The remuneration policy is based on Amundi group remuneration framework, and it is reviewed annually and approved by the Board of Amundi Luxembourg. The policy is subject to independent review by the internal Compliance function.

In 2018 there were no material changes to the remuneration policy adopted for previous years.

The policy applicable for 2018 was approved by Amundi Luxembourg Board on September 25th 2018.

Amundi group Remuneration Committee reviews on an annual basis the group remuneration policy. The 2018 review took place on February 1st, 2018.

The remuneration policy and practices objectives are consistent with and promote sound and effective risk management, aligning remuneration with long-term performance and risks in order to avoid conflicts of interest. Fixed remuneration components are linked to the roles covered, the professional services rendered and the scope of responsibilities, reflecting the level of academic qualification, market pay levels, experience and skills required for each position, as well as the level of excellence demonstrated. Variable remuneration is designed to promote a sustainable long-term development of the Management Company and a solid and effective risk management system. Variable remuneration awards consider the performance of the employee, her/his business unit and Amundi group as a whole, and it is based on both financial and non-financial criteria.

Amundi Luxembourg and Amundi group have defined all identified staff having authority or influence on the funds Amundi manages, and who consequently are likely to have an impact on the performance or the risk profile of our the funds.

■ AMOUNTS OF REMUNERATION AWARDED

Amundi Luxembourg, the Management Company acts as of 31.12.2018 as Management Company or AIFM for several umbrella and standalone UCITS and AIFs.

The total remuneration expressed in Euro paid by Amundi Luxembourg to its staff during the calendar year 2018 is as follows (*):

	Nr. of beneficiaries	Fixed remuneration	Variable remuneration	Total
Staff	102	6,118,079.11	1,259,281.00	7,377,360.11
Out of which				
- Identified staff	9	1,196,072.58	398,250.52	1,594,323.10
- All other staff	93	4,992,006.53	861,030.48	5,783,037.01

(*) Further to the acquisition of Pioneer Investments by Amundi group, the two Luxembourg management companies of Amundi group (Amundi Luxembourg S.A. and Pioneer Asset Management SA.) merged with effect from 01.01.2018.

The Fund represented as of 31/12/2018 around 19.14% of the Total Net Assets under Management of Amundi Luxembourg S.A.. The total remuneration figures shown above refer to activities in respect of all funds managed.

Amundi Luxembourg S.A. and Amundi group employees who are appointed to the Board of Directors of the Management Company and of the Fund waive the right to any remuneration in respect of all funds managed.

No employee of the Management Company receives any amount, including carried interest and performance fees, paid directly by the UCITS or AIFs managed.

² This Sub-Fund has been launched, see more details in Note 1.

³ This Sub-Fund has been merged, see more details in Note 1.

* The exceeding's lasted nineteen business days in total. Main drivers of the exceeding's were on the one hand side significant decreases of VaR of the risk reference portfolio and on the other hand side a later decrease of the VaR of the sub-fund in combination with some punctual increases, mainly due to bond future trades.

** The exceeding's lasted thirteen business days in total. They were mainly caused by currency trades and increase of interest rate risk.

*** The exceeding's lasted twenty business days in total. Amundi Funds Global Total Return Bond is a feeder of the French-domiciled fund Amundi Oblig Internationales and its VaR figures are controlled and reported basing on those of the correspondent master fund. The exceeding's were mainly caused by a decrease of VaR of the risk reference portfolio, while the VaR of the sub-fund took longer to decrease due different portfolio composition of the fund.

The Total expense ratio (TER) is fixed as follows:

¹ This Sub-Fund has been renamed, see more details in Note 1.

² This Sub-Fund has been launched, see more details in Note 1.

³ This Sub-Fund has been liquidated, see more details in Note 1.

* In certain cases (when a sub-fund has been taken over, liquidated, or launched within the last 12 months, when any class of shares has been launched or liquidated within the last 12 months, when the assets under management for any class of shares have increased or reduced significantly within the last 12 months, or when there are few assets under management for any class) the Total Expense Ratios calculated on an annual basis (reference period of 12 months) may not be representative of the true value.

HISTORICAL DATA (expressed in currencies of the classes)

Here are the highest issue prices and the lowest redemption prices of the shares over the last 12 financial years, or if the sub-fund has not been in existence during the whole period, over the whole period in which it has been in existence.

Important variation can appear over time in the value of one class of share, due to a corporate action.

Accounting year ending as at:	30/06/19	30/06/19	30/06/18	30/06/18	30/06/17	30/06/17	30/06/16	30/06/16	30/06/15	30/06/15	30/06/14	30/06/14
