#### **Management Report**

#### The economy in 2019

While in 2018 the acceleration in activity in the United States contrasted with slower economic growth in the rest of the world, 2019 was marked by a widespread growth slowdown.

In the United States, the effects that President Trump's tax reform had on growth faded as the year 2019 wore on. The results of economic surveys carried out with companies and households, which had shown good resilience up to the beginning of 2019, began to deteriorate, without, however, matching the surveys focused on the manufacturing sector, which showed a contraction in the sector from autumn onwards. However, the property market, which was showing signs of running out of steam in 2018 and at the beginning of 2019, has been given a new boost by the fall in interest rates, which picked up pace from the spring of 2019. The job market remained dynamic, although job creation was somewhat less strong and the unemployment rate continued to fall to 3.5% of the active population, which is very close to full employment. Wages continued to grow at a moderate pace relative to the level of unemployment, at +3.1% year-on-year in November 2019. Headline inflation remained slightly below 2% owing to the negative effect of energy prices, before reaching +2.1% in November, while core inflation (core CPI) remained slightly above +2%. Against this backdrop of slowing growth and uncertainties generated by the trade war with China, the Fed first cut key rates three times, at the end of July, end of September and end of October, as a "precautionary measure" to extend the cycle as long as possible, and announced the end of its policy of balance sheet reduction. The Fed then took a breather at its December meeting. The median dots suggest unchanged rates through the end of 2020 and a single rate increase in 2021. In view of the tensions on the interbank market, the Fed carried out exceptional repo operations and announced a programme to buy USD 60 billion of T-bills per month (with a maximum maturity of 12 months) until O2 2020 to rebuild reserves, while insisting that this action did not represent OE4.

In the Eurozone, growth slowed sharply in 2019 to slightly below potential. The year should finish with GDP growth of around 1.2% in 2019. Unemployment continued to fall in all countries and reached 7.5% on average in the zone at the end of the year. However, economic surveys deteriorated sharply in the entire zone, primarily affecting the manufacturing sector, where a contraction in activity was reported due to trade tensions, Brexit and difficulties specific to certain sectors (automotive, chemicals, machinery and equipment). The slowdown is much less pronounced in services owing to the solid performance of the labour market and the acceleration of wage increases. Inflation remains low, especially as oil price effects remain negative and core inflation has continued to fluctuate around 1%. Against this backdrop, the European Central Bank adopted a much more accommodating stance starting in spring 2019 and announced a package of measures in September: lowering of the deposit rate to -0.50% with a tiering mechanism (two-tier system for excess reserve remuneration), revision of the forward guidance, indicating that it will keep its key rates at current levels or lower for the long term, the return of QE with net purchases of securities of €20 billion per month starting on 1 November, and more favourable terms for new long-term loans to banks (TLTRO 3), with maturity extended from 2 to 3 years. The political situation remained complicated for much of the year in view of the Eurosceptic League/5 Stars coalition government in Italy and the ups and downs of Brexit, before these risks faded significantly at the end of the year.

In Japan, growth proved more resilient in 2019 than in most other areas, but is expected to be negative in the fourth quarter. While foreign trade data remained a cause for concern, with exports to China and the United States in particular on the decline, all components of domestic demand made a positive contribution to growth. Capital investment and public investment grew dynamically. In December, the government announced a massive 26 trillion yen budget support plan to be spread over the end of the current financial year and the next one. Growth in household consumption slowed at the beginning of the year before rebounding sharply ahead of the VAT hike scheduled for October. Typhoons caused major disruptions to production and deliveries in September, contributing to the very difficult business profile at the end of the year. Inflation slowed sharply to 0.5% year-on-year with the negative effect of energy prices. This should lead the BOJ to pursue its policy of "Quantitative and Qualitative Monetary Easing with Yield Curve Control" for a long time to come.

#### **Management Report (continued)**

In China, growth continued to slow gradually in 2019 and the latest indicators of activity remained mixed, suggesting a stabilization of activity rather than a real recovery. The manufacturing sector continued to weaken markedly throughout the year, with some sectors, such as automotive, being hit hard by lower sales and the increasingly negative effect of the trade war with the United States. Against this backdrop, the authorities eased monetary constraints modestly throughout the year and pursued an expansionary fiscal policy that was slow to have an impact on economic activity. The yuan, which had depreciated significantly against the dollar in 2018, fell by nearly 2% over the course of 2019.

After a phase of heightened tensions in the summer of 2019 following the announcement by Donald Trump of multiple increases in tariffs on imports of Chinese goods, a Phase 1 agreement was reached at the end of the year. The terms of this agreement are due to be made public in January 2020.

The rest of the emerging world was broadly penalised by the trade tensions, which affected the countries and sectors most exposed to global trade. Beyond the slowdown in world trade, Asian countries were particularly affected by the contraction of activity in the semiconductor sector. There was substantial monetary easing in 2019. This was made possible by the absence of inflationary pressure (with the exception of Turkey), and there is still room for manoeuvre in some countries to lower key rates in 2020. Rate cuts should help to support domestic demand. Nor are fiscal policies expected to be restrictive in 2020. Korea, India and Chile have made announcements of budget support. They will directly support GDP growth.

Oil prices were much less volatile in 2019 than they were in 2018. After an initial phase of appreciation at the beginning of the year, when oil prices rose from \$57 a barrel to a high of \$72 in May, they fell and then bounced back as a result of the attack on production sites in Saudi Arabia in September, the truce between China and the United States, which raised hopes of a rebound in world trade, and the OPEC agreement to cut production in December.

#### Inclusion of extra financial criteria

Information relating to the application of investment strategies for the various Sub-Funds during 2019, as well as the ESG policy of the Management Company, is available on the website <a href="www.cpr-am.com">www.cpr-am.com</a>.

#### Outlook for 2020

The Board of Directors of the Company acknowledge the existence of the current outbreak of the coronavirus COVID-19 and its potential to adversely impact the markets in which the Sub-Funds are invested. The ultimate impacts on the different Sub-Funds remain uncertain and can be expected to vary according to country, asset class, industry sector and individual securities in which they are invested.

You can get acquainted of the financial impact of this situation on the SICAV CPR Invest via the website www.cpr-am.com, which publishes daily the unaudited NAV of each of the Company's Sub-Funds.

#### REPORT OF THE RÉVISEUR D'ENTREPRISES AGRÉÉ

#### **Opinion**

We have audited the financial statements of CPR Invest (the "Company") and of each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at December 31, 2019, the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company and of each of its sub-funds as at December 31, 2019, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with the law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the Réviseur d'Entreprises Agréé for the Audit of the Financial Statements" section of our report. We are also independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the *Réviseur d'Entreprises Agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Company for the Financial Statements

The Board of Directors of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the Réviseur d'Entreprises Agréé for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the *Réviseur d'Entreprises Agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Company.
- Conclude on the appropriateness of the Board of Directors of the Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *Réviseur d'Entreprises Agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *Réviseur d'Entreprises Agréé*. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## Deloitte.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For Deloitte Audit, Cabinet de Révision Agréé

#### Other notes to the financial statements as at December 31, 2019 (continued)

#### 1. General Information (continued)

\* Hedged Classes of shares: this operation aims to hedge the exchange rate risk in the currency of the shares compared to the reference currency of the Sub-Funds.

The detail of each class of shares offered within each Sub-Fund is disclosed in the current prospectus of the Company.

# 2. Principal accounting principles

#### 2.a. Presentation of the financial statements

The financial statements of the Company are presented in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and prepared in accordance with generally accepted accounting principles in Luxembourg. The combined financial statements of the Company are expressed in EUR and obtained by addition of the figures of the different Sub-Funds on a line by line basis.

#### 2.b. Valuation policy of investments

Securities or financial instruments admitted for official listing on a regulated market are valued on the basis of the last available price at the time when the valuation is carried out. If the same security is quoted on a regulated market, the quotation on the principal market for this security will be used. If there is no relevant quotation or if the quotations are not representative of the fair value, the evaluation will be made in good faith by the Board of Directors of the Company or their delegate.

#### 2.c. Valuation policy of the Master Funds

The valuation of units or shares of the Master Funds is based on the last determined and available net asset value.

#### 2.d Net realised profit and loss on sales of investments securities

The net realised profits and losses on sales of investments securities are determined on the basis of average cost and are recognised in the Statement of Operations and Changes in Net Assets under the item "Net realised profit / loss on sales of investment securities".

## 2.e Currency translation

The Company's financial statements are expressed in EUR.

The transactions and acquisition costs denominated in foreign currencies are converted into the accounting currency of each Sub-Fund based on the exchange rate in force on the date of the transaction or acquisition. Assets and liabilities denominated in foreign currencies are converted into the accounting currency of each Sub-Fund based on the exchange rate in force at the end of the financial year. Any resulting realised profits or losses are recognised in the Statement of Operations and Changes in Net Assets under the item "Net realised profit / loss on foreign exchange".

As at December 31, 2019, the exchange rates used were the following:

For the details of outstanding financial future contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

#### 2.k Options

Options traded on a regulated market are valued on the basis of the last available price at the time when the valuation is carried out. Net realised profit or loss on options is recorded in the Statement of Operations and Changes in Net Assets under the item "Net realised profit / loss on options".

For the details of outstanding option contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

#### 2.1 Income

Dividends are recognised as income on the date securities are first quoted ex-dividend. Dividends are recorded net of any eventual withholding taxation. Interest is accrued for each net asset valuation.

#### 2.m Securities lending

The Company may lend securities included in its portfolio to a borrower. To guarantee this transaction, the Company receives a collateral. Securities lending attracts remuneration for the Company according to the contracts and is accounted for in the Statement of operations and changes in net assets under "Securities lending income".

Securities lending are delivered to a third party broker, the assets of which continue to be valued as part of the portfolio of the Company (Note 11).

## 3. Subscription Tax ("taxe d'abonnement")

The Company is subject in Luxembourg to an annual tax of 0.05%, for all Classes of shares, payable quarterly on the basis of the net assets of the Company as calculated at the end of the relevant quarter, except for the Class I shares which benefits from a reduced "taxe d'abonnement" of 0.01% of the net asset value as the class is reserved to institutional investors.

The net assets invested in collective investment undertakings subject to the "taxe d'abonnement" stipulated by Article 175 (a) of the Law are exempt from the "taxe d'abonnement".

#### Performance fees

The Performance fee is provisioned every time the net asset value is calculated. The Performance fee is charged on an annual basis.

It may be charged even if the performance during the year is negative. When the amount of redemptions is higher than the amount of subscriptions, the portion assigned to the Performance fee provision corresponding to that amount (redemptions less subscriptions) accrues to the Management Company on a permanent basis.

In the event that the Sub-Fund underperforms the benchmark index, the Performance fee is readjusted via a provision reversal that is limited to the amount of the existing provision.

The first calculation period of the Performance fee shall start at launch of the Sub-Fund and end at the close of the first financial year.

If the calculation period of the performance fees is not in line with the Company's financial year, performance fees may affect the section "Income" of the Statement of Operations and Changes in Net Assets. These incomes refer to reversals of provisions on performance fees.

#### 6. Statement of changes in the securities portfolio

The Statement of changes in the securities portfolio for the year from January 1, 2019 to December 31, 2019 is available free of charge at the Company's registered office.

#### 7. Master-Feeder structure

The Sub-Funds CPR Invest - Silver Age, CPR Invest - Reactive, CPR Invest - Defensive, CPR Invest - Euro High Dividend and CPR Invest - Dynamic are each Feeder of a Master Fund, a French Mutual Investment Fund authorized by the *Autorité des Marchés Financiers* as a UCITS, as described as follows, and invests at least 85% of its assets in units of the Master Fund. The Sub-Funds may hold up to 15% of its assets in one or more of the following:

- Ancillary liquid assets,
- Financial derivative instruments, which may be used only for hedging purposes.

The Sub-Funds and the Master Funds are both managed by the Management Company.

The financial years of the Master Funds end on December 31 each year.

The Feeder Sub-Funds are investing in Class T units of their respective Master Funds as follows:

| Feeder Sub-Funds                | Master Funds             | % of Class T units |
|---------------------------------|--------------------------|--------------------|
| CPR Invest - Silver Age         | CPR Silver Age           | 100.00%            |
| CPR Invest - Reactive           | CPR Croissance Réactive  | 100.00%            |
| CPR Invest - Defensive          | CPR Croissance Défensive | 100.00%            |
| CPR Invest - Euro High Dividend | CPR Euro High Dividend   | 100.00%            |
| CPR Invest - Dynamic            | CPR Croissance Dynamique | 100.00%            |

The investment objective of each Sub-Fund is the same as the Master Fund:

#### **CPR Invest - Silver Age:**

The Master Fund's objective is to outperform the European equity markets over the long-term, at least 5 years, by taking advantage of the momentum of European equities associated with the ageing of the population.

#### **CPR Invest - Reactive:**

The Master Fund's objective is to deliver over the medium term – with a minimum of 4 years – a higher return than the one of the composite benchmark: [50% J.P. Morgan GBI Global Index Hedge Return in euro + 50% MSCI World Index Net Return in euro].

## Other notes to the financial statements as at December 31, 2019 (continued)

## 7. Master-Feeder structure (continued)

#### **CPR Invest - Defensive:**

The Master Fund's objective is to deliver, net of management fees, over the medium term -2 years minimum -a higher return than the one of the composite benchmark: [80% J.P. Morgan GBI Global Index Hedge Return in euro +20% MSCI World Index Net Return in euro] with an expected maximum volatility of 7%.

#### **CPR Invest - Euro High Dividend:**

The Master Fund's objective is to deliver over a long-term investment horizon – at least 8 years – a higher return than the one of the benchmark MSCI EMU Index Net Return in euro, by selecting securities with a higher dividend rate (dividend to share price) than the average dividend rate of the securities included in the MSCI EMU.

#### **CPR Invest - Dynamic:**

The Master Fund's investment objective is to deliver over a long-term investment horizon – at least 5 years – a higher return than the one of the composite benchmark: [20% J.P. Morgan GBI Global Index Hedge Return in euro + 80% MSCI World Index Net Return in euro].

At the level of the Master Funds, the fees, charges and expenses associated with the investments are the operating and management fees covering all the expenses invoiced directly to the Master Funds, with the exception of transaction fees.

As at December 31, 2019, the maximum operating and management fees charged by the Master Funds for the class of units held by the Feeder Sub-Funds (Class T) is equal to 0.15%.

For the year ended December 31, 2019, the total fees charged for the Feeder Sub-Funds and for the Master Funds are as follows:

# 9. Related Party Investments

During the year 2019, the Company invested its assets in the units of other investment funds promoted by CPR Asset Management or other entities from the same group. As the Company intends to invest in other target investment funds, there may be duplication of management, subscription, redemption and conversion fees for sub-funds investing in them. The Company will endeavour to ensure that the minimum level of underlying fees be applicable to the sub-fund when investing in target investment funds.

In the case where a substantial proportion of the net assets are invested in investment funds the prospectus of the relevant Sub-Fund will specify the maximum management fee (excluding any performance fee, if any) charged to the Sub-Fund and each of the UCITS or other UCIs concerned.

These investments do not give rise to a modification of the management fees borne by the aforementioned Sub-Funds.

The Directors for their services to the Company, do not receive any customary fees for the year ended December 31, 2019.

#### 10. Dividends paid

# 11. Securities lending (continued)

For the year ended December 31, 2019, the net amount of securities lending income generated by the Company is disclosed in the Statement of Operations and Changes in Net Assets in the caption "Securities lending income" and the direct-indirect costs and fees are detailed below:

| Name of Sub-Fund                             | Total gross amount of securities lending income in EUR | Direct-indirect costs and fees<br>deducted from gross securities<br>lending income in EUR | Total net amount of securities lending income in EUR |

| CPR Invest - Global Silver Age               | 243,156.62   | 113,413.15  | 129,743.17   |
| CPR Invest - Global Disruptive Opportunities | 4,559,553.49   | 1,843,140.56  | 2,716,412.93   |

#### 12. Swing Pricing

Significant subscriptions and redemptions may impact the net asset value of the Sub-Funds because of the portfolio adjustment costs related to investment and divestment transactions. This cost may originate from the difference between the transaction price and the valuation prices, taxes or brokerage fees.

For purposes of preserving the interests of the shareholders present in the Sub-Funds, the Board of Directors of the Company may decide to apply a swing pricing mechanism to any Sub-Fund with a trigger threshold.

As a result, as long as the absolute value of the balance of subscriptions and redemptions of all shares of the relevant Sub-Fund together is greater than the preset threshold, there will be an adjustment to the net asset value. Consequently, the net asset value will be adjusted as follows:

- on a Sub-Fund experiencing levels of net subscriptions on a Valuation Day, the net asset value per Share will be adjusted upwards and;
- on a Sub-Fund experiencing levels of net redemptions on a Valuation Day the net asset value per Share will be adjusted downwards.

The Swing Pricing mechanism has been activated for the Sub-Fund CPR Invest - Smart Beta Credit ESG on June 26, 2019.

The Swing Factor will normally not exceed 2% of the net asset value of the Sub-Fund unless exceptional market conditions occur.

#### 13. Other income of the Sub-Fund CPR Invest - Medtech (launched on December 12, 2019)

The amount disclosed in the section "Other income" in the Statement of Operations and Changes in Net Assets of the Sub-Fund CPR Invest - Medtech (launched on December 12, 2019) is due to an operational error at the launch of the Sub-Fund, that has been reimbursed to the Sub-Fund.

#### 14. Subsequent events

The COVID-19 epidemic is expected to have significant negative impacts on the world economy, which would worsen if the epidemic was not contained quickly. This leads to a marked slowdown in activity due to the impact of containment measures on consumption and the distrust of economic agents, as well as production difficulties, disruption of supply chains in certain sectors, and a slowdown in investment. The result would be a marked drop in growth, or even technical recessions in several countries, which is reflected in the significant drop in the financial markets and by increased volatility. Regarding CPR Invest, the main immediate impact results from the sensitivity of the assets under management to this decline in the financial markets (equities, rates, etc.) in terms of valuation.

#### Other notes to the financial statements as at December 31, 2019 (continued)

## 14. Subsequent events (continued)

To cope with this situation and the specific conditions it entails, CPR AM has set up a complete system enabling it to maintain appropriate management of the CPR Invest SICAV across all of the Sub-Funds. Thus, the business continuity plan has been activated, allowing employees to work remotely with the appropriate means (operational connections, deployed tools, etc.). The management functions are therefore fully ensured and coordinated daily with the Management and all of CPR AM's control services are also functional.

In these exceptional circumstances, we have identified as priorities:

- 1. to manage the investments of our clients with the same performance and risk control objectives financial or operational as in normal times; and
- 2. to advise and support our clients in a period of great volatility on the financial markets.

Finally, we made sure that our service providers, and in particular CACEIS Bank, Luxembourg Branch, had implemented a system to guarantee the continuity of its services to the Company, across all the functions of Fund Administration, Custodian and Transfer Agent.

You can get acquainted of the financial impact of this situation on the SICAV CPR Invest via the website <a href="https://www.cpr-am.com">www.cpr-am.com</a>, which publishes daily the unaudited NAV of each of the Company's Sub-Funds.

# **Unaudited information**

# 1. Global exposure calculation method

The method used to calculate overall exposure of the Sub-Funds is the commitment calculation method.

# 2. Total Expenses Ratio (TER)

The TER is calculated by dividing the expenses, excluding transaction fees and performance fees, by the average net assets of the Sub-Funds.

The TERs for the year ended December 31, 2019, excluding performance fees and accrued transaction fees, are as follows:

#### 4. Remuneration policy

#### 1. Remuneration policy and practice of the Management Company

The remuneration policy implemented by CPR Asset Management (« CPR AM ») is compliant with the rules in terms of remuneration specified in the Directive 2011/61/UE of the European Parliament and of the Council of June 8th 2011 on Alternative Investment Fund Managers (the "AIFM Directive"), and in the Directive 2014/91/UE of July 23rd 2014 on undertakings for collective investment in transferable securities (the "UCITS V Directive"). These rules, about remuneration policies and practices, have for objective to promote sound and effective risk management of fund managers and the funds they manage.

This policy is incorporated within the framework of the remuneration policy of Amundi reviewed each year by its Remuneration Committee. The Remuneration Committee approved the remuneration policy in relation to the 2018 fiscal year and its compliance with the AIFM/UCITS Directives' principles at its meeting held on February 8, 2019. The policy applicable for the 2018 exercise has been reviewed during the Remuneration Committee held on February 8, 2019 and extended in 2019.

In 2019, the implementation of the Amundi remuneration policy was subject to an internal, central and independent audit, driven by the Amundi Internal Audit.

#### 1.1 Amount of remuneration paid by the Management Company to its employees

During fiscal year 2019, the total amount of compensation (including fixed, deferred and non-deferred bonus) paid by CPR AM to its employees (112 employees at December 31, 2019) is EUR 13,877,266. This amount is split as follows:

- The total amount of fixed remuneration paid by CPR AM for 2019: EUR 9,441,560, which represents 68% of the total amount of compensation paid by CPR AM to its staff, were in the form of fixed remuneration.
- The total amount of bonus deferred and non-deferred paid by CPR AM in 2019: EUR 4,435,706, which represents 32% of the total amount of compensation paid by CPR AM to its staff, were in this form. The entire staff is eligible for variable compensation.

Additionally, some 'carried interest' was paid by CPR AM with respect to fiscal year 2019, and is taken into account in the total amount of bonus referred to here above.

Because of the small number of 'executives and senior managers' (3 employees at December 31, 2019), and 'senior investment managers' whose professional activities have a material impact on CPR AM's risk profile (6 employees at December 31, 2019), the total amount of compensation (fixed and bonus deferred and non-deferred) paid to this category of staff is not disclosed.

#### 12 Alignement of remuneration and practice with risk profile of the UCITS

The Amundi Group has adopted and implemented remuneration policy and practices compliant with the latest norms, rules, and guidelines issued from the regulatory authorities for its management companies (AIFM/UCITS).

The Amundi Group has also identified all of its 'Identified Staff', which includes all the employees of the Amundi Group having a decision authority on the UCITS/AIFM management companies or the UCITS/AIFs managed and consequently likely to have a significant impact on the performance or the risk profile.

The variable remuneration awarded to the Amundi Group staff takes into account the performance of the employee, its business unit and the Amundi Group as a whole, and is based on financial and non-financial criteria as well as the respect of sound risk management rules.

The criteria taken into account for performance assessment and remuneration award depends on the nature of the employee's functions:

## 1. Management and selection of AIFs/UCITS functions

Common financial criteria:

- Gross and net performance over 1, 3 years;
- Information ratio and Sharpe ratio over 1, 3 and 5 years;
- Performance fees collected during fiscal year when relevant;
- Competitive ranking;
- Contribution to net inflows/Successful requests for proposals, mandates during fiscal year.

Common non-financial criteria:

- Respect of internal rules in terms of risk management and prevention (Risk/Compliance);
- Innovation / Product development;
- Sharing of best practices and collaboration between employees;
- Commercial engagement;
- Quality of management.

#### 2. Sales and marketing functions

Common financial criteria:

- Net inflows;
- Revenues;
- Gross inflows; client base development and retention; product mix;

# 4. Remuneration policy (continued)

#### 2. Sales and marketing functions (continued)

Common non-financial criteria:

- Joint consideration of Amundi's and clients' interests;
- Clients satisfaction and quality of relationship;
- Quality of management;
- Securing/developing the business;
- Cross-functional approach and sharing of best practices;
- Entrepreneurial spirit.

#### 3. Control and support functions

For control and support functions, performance assessment and remuneration award are independent from the performance of the business they oversee.

Common criteria taken into account are:

- Mainly criteria related to the meeting of objectives linked to their functions (risk management, quality of controls, completion of projects, tools and systems improvement etc.)
- When financial criteria are used, these are mainly related to management/ optimization of expenses.

The above-mentioned performance criteria, and specifically those applicable to Identified staff in charge of the management of AIFs/UCITS, comply with the applicable regulation as well as to the AIF's/UCITS investment policy. These internal rules of Amundi Group contribute to a sound and effective risk management.

Furthermore, Amundi Group has adopted and implemented, for its entire staff, measures aiming to align remuneration with long-term performance and risks in order to avoid conflicts of interest.

In this respect, notably:

- The deferral policy has been adapted to comply with the AIFM and UCITS V Directives' requirements.
- The deferred portion of bonus for identified staff members is awarded in financial instruments indexed at 100% on the performance of a basket of AIFs and/or UCITS funds managed.
- The actual payment of the deferred portion is linked to the financial situation of Amundi Group, with the continued employment within the group and to a sound and effective risk management over the vesting period.
